Picketed bedding is your go-to solution when you're in need of a warm, cozy quilt to sleep under. You may be searching for a very special baby quilt or a bedding ensemble that can be used for several generations to come. You can be sure to find just what you're looking for at ASOS. You'll find the largest and most varied collection of bedding online. One of the biggest trends in bedding over the past few years is the use of self-stick velcro. It's making a comeback and you can never go wrong with a velcro sheet set. Why velcro over other fasteners? One word: cost. For a velcro sheet set, you're likely to spend around \$15 or less. For bedding that involves a fastener you're more likely to spend upwards of \$20. The great thing about velcro is that, unlike buttons or zippers, you don't have to make a big production about getting it closed. The velcro on a self-stick sheet set easily detaches for laundering and it's the perfect way to quickly put together a bed in 82157476af
